

Outsourcing of IT Recruitment and Selection

For a fixed annual cost, we take care of the entire Recruitment and Selection process. This implies from the survey and definition of the required profile to collaboration and advice in hiring.

Focusing on IT and Telecommunications profiles. You will have a solid team committed to recruiting Talents.

With an effective working method and a very broad knowledge of all kinds of positions in the IT environment. It guarantees a personalized service and the maximum adaptation possible to the problems of each client, integrating the global vision of the company to the selection of personnel (suitability of the candidate / position / company and company values).

To tell you a little about us, iTechCareer-RD is an HR Consultant specialized in Personnel Selection for Technology Profiles. Made up of a group of professionals with more than 10 years of experience in this field.

We use multiple tools, including our Employment Website (http://iTechCareer.com) with 150,000 Resume from Systems and Telco, which we add our presence on web 2.0 (Social Networks such as Linkedin and Facebook) to select and evaluate candidates.

"IT Talent is iTechCareer.com - Detecting, Selecting and Attracting IT Talents is what we propose to you".
